Allowable Subject Matter

1. Claims 1 – 4, 6 – 17, 19 – 30, and 32 – 39 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 14, and 27 (renumbered 1, 13, and 25) are directed to an apparatus, method, and computer-executable program, respectively, for making comparisons and selections based on times for generating image data and reading out image data from storage, except when a predetermined mode has been selected already. These claims have the uniquely distinct features of measuring the time it takes to generate the image data, measuring the time it takes to read out the image data from memory, comparing these times, and selecting a print method based on the comparison, all in a system that allows the mode to not be decided when set previously. The closest prior art Inuzuka et al. (US 6404930) and Dow et al. (US 6832187) teach the basic ideas of forming image data, storing image data, and reading out image data for printing (Inuzuka), and in a printing system, calculating time constraints and making determinations of how to print data based on the determinations (Dow). The closest prior art thus do not singularly or in combination teach the specific measurements, comparisons, selections, and predetermined modes as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lucas Divine whose telephone number is 571-272-7432. The examiner can normally be reached on Monday - Friday, 7:30am - 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Moore can be reached on 571-272-7437. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
